MEMORANDUM FOR: [REDACTED] Assistant to the DCI
for Public Affairs

STAT

SUBJECT : Conference with the Press [REDACTED]
[REDACTED]

STAT

1. With your foreknowledge, as per our telephone conversation of yesterday, I met last evening with Miss Jean Franklin of the Washington Bureau of Time-Life, Inc. Miss Franklin sought a personal, non-official interview because she is preparing an article for Time Magazine on the subject of library automation and information technology; my name had been referred to her as a professional source of information.

2. The interview was limited to technical matters concerning the use of data processing in library operations, and the retrieval of information from documentary material.

3. Miss Franklin evidently knew of my Agency affiliation, but indicated that in the context of this interview she would refer to me as "Lecturer on Automation at Catholic University." The only time that CIA was mentioned was in connection with WALNUT. I referred Miss Franklin to two articles on WALNUT which had appeared previously in the press.

4. Miss Franklin expects her article to appear in Time Magazine two weeks hence if her Editor decides to publish it.

JOSEPH BECKER
Director of Computer Services
